

Attn: Ajit Pai

My name is Edith Castorena and I strongly oppose your movement to eliminate net neutrality and slow down or restrict access to websites. This is highly unfair and if you choose to value the profit of businesses over the will and demand of the people you are chosen to serve, you truly aren't deserving of your position. How can you work to

silence voices and  
raise prices of those  
you have pledged to  
work for? America is  
not businesses and  
profit but the people  
of the nation. Your  
work to end net  
neutrality is slighting  
the American public  
and will not be  
forgotten.
